

INFEED

Fully customisable infeed automation solutions that eliminate risk, human error and can keep up with the speed of your saw.

VEKTA PACKFEEDER

/ TOP VIEW

/ SUMMARY

Your saw is only as fast as its feed – manual loading leads to downtime, fatigue, and costly errors.

With the smallest footprint on the market, Vekta's compact dual-level PackFeeder intelligently scans, selects, and delivers boards to the saw at lightning speed – eliminating excess inventory, transportation and waiting times.

/ SPECIFICATIONS

Max. number of packs	24*
Typical pick cycle time	15 s (up to 2 boards at a time)
Standard PackFeeder sizes (number of bunks)	20 AUS sized*
Supported timber sizes	Min – 70 mm x 35 mm x 2400 mm Max – 300 mm x 45 mm x 6000 mm
Power req.	32 A @ 415 VAC / 480 VAC

* Total number of packs dependent on the physical size of the packs used

/ FEATURES

- Requires ≈75% less space than equivalent systems
- Dual-level design allowing for different size packs with optimal space utilisation
- Flexible loading – option to split packs and reconfigure bunk sizes to maximise versatility

/ OPTIONS

- **Stand-alone versions available**
- Integratable with third party saws
- PackFeeder staging area for quicker timber restock
- Various sizing options available

/ VEKTA vs THE COMPETITION

- The illustration to the right highlights the amount of floor space required for an equivalent size bunkfeeder incorporating typical 20 AUS sized packs of timber (approx. 75% less)
- The PackFeeder was developed specifically to keep up with high-speed linear saws (like the Razer), as such, it has unmatched speed, accuracy and reliability
