

CONVEYING

Eliminate bottlenecks, error and potential injury with our scalable and upgradable custom conveying and stacking systems.

VEKTA STAKPRO FRAME

/ TOP VIEW

/ SIDE VIEW

/ SUMMARY

The Vekta StakPro Frame is placed at the end of a framing line (indoors or outdoors) and has two arms that lift the assembled frames and stack them – all at the touch of a button.

Remove injury risk and manual requirements for automated frame delivery and stacking.

Available in multiple model options.

/ SPECIFICATIONS

| | |
